

ShoreStation® ShoreScreen Power Curtain

PROTECTION
ALL SEASON

**From covered to uncovered
in seconds. Protect your boat with
this remote controlled screen.**

The Ultimate in Boat Protection

Protect your boat from damaging UV rays, and create a barrier against wind-blown debris, insects and birds to ensure your boat stays in showroom condition. No more hassling with traditional heavy boat covers and snaps.

Fast, Trouble-free Operation

Two drive motors positioned on opposite corners roll all four screens simultaneously without complicated cables or pulleys.

Sun-Control Screening with Microban

The black SunTex 80 woven mesh gives the ShoreScreen a subdued shadowy effect. It absorbs and dissipates up to 80 % of the sun's heat while allowing air flow. The microban technology prevents mildew build-up when rolled up.

Convenient Wireless Operation

Simply push a button on the remote and the cover quickly raises and lowers around your boat. You can even use the same remote for both your lift and ShoreScreen.

**Quietly raises and
lowers in seconds with
the push of a button.**

Scan the code or visit the link below to experience the ShoreScreen Power Curtain in action.

Quality Design

Modular Design

Mounts inside frame so it doesn't interfere with canopy installation and removal.

Curtain Guide

Protects the boat by limiting inward motion of the curtain under wind load. Two per side.

Maintenance Free

Corrosion resistant aluminum frame provides a durable and long-lasting structure.

360° Protection

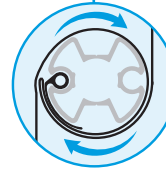

Fully unrolled, the curtain is 7 ft long.

Easy Installation

Installs in as little as two hours with two people.

Wireless Operation

12V DC motors use the boat lift battery and is controlled with the same remote as your FlexPower® lift.

Roll Bar System

Efficiently retracts all four sides as one without cables or pulleys.

Specifications for ShoreScreen

SHORESCREEN KIT #	CANOPY FRAME LENGTH	CANOPY FRAME WIDTH	MAXIMUM CURTAIN LENGTH	INSIDE DIMENSIONS	POWER SYSTEM	CONTROL SYSTEM	CURTAIN MATERIAL
